CHS's Cleveland Regional Renews Contract with Evolved

Nashville, TN – Jan. 5, 2005/CNW/(TSX: EVD) - EVOLVED Digital Solutions, the leading provider of medical imaging management solutions, today announced that Cleveland Regional Medical Center in Cleveland, TX has signed a 5-year contract renewal for managed services.

Cleveland Regional signed its first contract with Evolved in 1998. The 107-bed facility employs five core Evolved imaging management services: Bank² secure offsite archive; Process² radiology workflow with online dictation/transcription; Access² web image distribution; Team² round-the-clock management; and Link² communications interface. The web-based, fully managed digital imaging solution from Evolved offers an affordable financial model for small and mid-size facilities.

"We love the Evolved technology," says Kim Dees, Cleveland's Director of Diagnostic Imaging. "Throughout the hospital, physicians have easy access to images and data. We also have fourteen physicians who view the images in their own offices. Employee and customer satisfaction is very high."

Dees notes that the Evolved solution has lowered her image repeat rate and accelerated turnaround. "As soon as we finish archiving an image, the doctor can see it immediately." She also believes the system has helped her facility recruit new physicians to the area. "They're amazed that a hospital of our size and location would have a PACS [Picture Archive Communication System]."

Dees says she has recommended Evolved to her colleagues at other CHS hospitals. "We're thrilled with the 24-hour customer support. Not many account managers will give

you their cell phone number and tell you to call any time. I know that when I call Glenn Woodard with a problem, he hears and responds. That's one thing I don't have to worry about."

Dees observes that over the last few years, Cleveland Regional and Evolved have "grown up together" and developed important relationships between the two organizations. "I can't replace that."

"We're delighted to continue our partnership with Cleveland Regional Medical Center," says John Southcott, President and CEO of Evolved. "The web-based, managed solution that we deliver is ideal for their medical facility, and we look forward to the next five years of a mutually rewarding relationship."

About Evolved

With over 100 customer locations across North America, including several CHS hospitals, Evolved transforms hospitals and imaging centers from manual to digital imaging, improving efficiency, turnaround time and patient care. Although Evolved delivers solutions for Radiology Information Systems (RIS) and Picture Archive Communication Systems (PACS), Evolved is not just another RIS/PACS vendor. The managed solution typically cuts a hospital's capital investment by half, and a recent hospital study showed Evolved customers realize an average return on investment of 123% within the first year, 142% ROI in subsequent years.

Evolved is a publicly traded company listed on the Toronto Stock Exchange. Corporate headquarters are based in Laval, Quebec. US offices are located in Brentwood, Tennessee. For more information, contact EVOLVED toll-free at 1-877-538-6563, or visit the company website at www.evolveddigital.com.
