

EVOLVED DIGITAL SYSTEMS INC. ANNOUNCES RESULTS FOR THE NINE MONTHS ENDED SEPTEMBER 30, 2005, LOSSES NARROW

Montréal, (Québec, Canada) – November 8, 2005 / CNW/ - Evolved Digital Systems Inc. (TSX: EVD), a leading healthcare technology solutions company, today announced its results for the quarter and nine months ended September 30, 2005.

Revenues for the nine months ended September 30, 2005 were \$12.4 million as compared to revenues of \$12.7 million for the first nine months of 2004. Excluding the effect of exchange rate fluctuation, revenues increased by \$0.6 million due to revenue from an Original Equipment Manufacturer (OEM) development agreement established during the end of the second quarter of 2004 and \$0.2 million related to the timing of equipment sales. The increase in revenue was partially offset by a decrease of \$0.2 million related to a decline in transcription revenue.

Revenues for the third quarter 2005 totaled \$3.8 million, down 7.2% compared to revenues of \$4.1 million for the third quarter 2004. Excluding the effect of exchange rate fluctuation, revenues for the third quarter of 2005 were flat compared to the third quarter of 2004. An increase in revenue due to software royalties and the timing of non-recurring equipment sales of \$0.3 million was offset by a decrease of \$0.3 million related to a decline in technology services and transcription services.

Loss from operations for the three and nine-month periods ended September 30, 2005 was \$1.0 million and \$2.3 million, respectively, compared to loss from operations of \$1.2 million and \$8.7 million for the three and nine-month periods ended September 30, 2004. Evolved feels that EBITDA, a financial measure that is not standardized under Canadian generally accepted accounting principles (GAAP), is most directly comparable to the GAAP measure of loss from operations. EBITDA for the third quarter of 2005 was a loss of \$0.5 million compared to \$0.4 million loss for the third quarter of 2004. EBITDA for the nine months ended September 30, 2005 was a loss of \$0.5 compared to a loss of \$5.7 million for the prior comparable period. The decrease of \$0.1 million for the quarter is primarily attributable to a gain on a settlement of a contract of \$2.0 million recorded during the third quarter of 2004 partially offset by a reduction in operating expenses resulting from the Company's reorganization in the fourth quarter of 2004. The improvement in EBITDA of \$5.2 million for the first nine months of 2005 is primarily attributable to the continued reduction in operating costs as a result of the 2004 reorganization as well as management's focus on continuing to capitalize on the synergies created.

Net loss for the third quarter 2005 was \$1.5 million (or \$0.03 per share) versus a net loss of \$1.3 million for the third quarter 2004 (or \$0.02 per share). Net loss for the nine months ended September 30, 2005 was \$3.3 million (or \$0.06 per share) compared to \$8.9 million (or \$0.16 per share) for the first nine months of 2004.

Evolved completed a debt and equity financing package of up to \$8.2 million on February 18, 2005. The initial closing of \$6.0 million consisted of a \$3.0 million term loan from Argosy Bridge

Fund, L.P. II (Argosy) and a \$3.0 million private placement of a newly created class of shares, the First Series A Preferred Shares, issued to two existing shareholders. During the third quarter of 2005, Evolved completed the second and third closings of its debt financing package with Argosy consisting of a \$1.0 million term loan. Evolved also completed the second and third closings of the private placement of an additional 3.4 million First Series A Preferred Shares for proceeds of \$1.2 million.

Non GAAP Financial Measures

Certain financial measures used in this press release do not have any standardized meaning under Canadian GAAP. Earnings before interest, taxes, depreciation and amortization (EBITDA) is a financial metric used to analyze operating results. We define EBITDA as net loss plus depreciation and amortization, including loss on impairment of assets, and net interest expense. EBITDA is used as a benchmark of operating performance and is a key component of certain of our restrictive debt covenants. A reconciliation of EBITDA to operating loss is presented where EBITDA is first discussed. This non-GAAP financial measure does not have any standardized meaning prescribed by GAAP and is therefore unlikely to be comparable to similar measures presented by other issuers.
